D-LinkUtility-Package

Update 16 Jul 2024 Support macOS Sequoia 15

Support macOS Catalina, Big Sur 11, Monterey 12, Ventura 13, macOS Sonoma 14, macOS Sequoia 15

An old D-Link project that I redid to adapt it to new macOS System

This utility Working for macOS Catalina, Big Sur 11, Monterey 12, Ventura 13, macOS Sonoma 14, macOS Sequoia 15 only!

- SIP Security and Gatekeeper must be disable

For Troubleshooting see ➢ Troubleshooting

Download Latest release ➢ V10 D-LinkUtility-Package.zip

For SIP Activate ➢ Notarized-RT2870USBWirelessDriver

🔻 Follow Video from Monterey 12

- Video in three stages, NO-1 /Library/Extensions, NO-2 clover, NO-3 OpenCore
- NOTE: stages, NO-1 /Library/Extension takes more time; you can advance ⏭ the video to the installation stage.

- Users who have an active Wifi service can create an Internet Sharing with a Wifi Access point and you can exit the Wifi-Utility.app

View Setup: ➤ Setup Access point connection
